Independent, Non-Clinical Cancer Navigation Support

(303) 900-3199 · katherine@beaoncancernavigation.com · beaoncancernavigation.com

When a patient or family member receives a cancer diagnosis, the non-clinical complexity — coordinating appointments, organizing records, navigating financial assistance, and managing caregiver responsibilities — can be just as overwhelming as the medical journey. Beacon Cancer Navigation provides independent, non-clinical support that complements your clinical care.

WHAT WE DO — NON-CLINICAL NAVIGATION SERVICES

- Appointment coordination across oncologists, specialists, imaging, and labs
- Financial resource research (grants, co-pay assistance, hospital aid)
- Treatment preparation and question development for oncology visits
- Medical records and paperwork organization
- Caregiver support and task delegation
- Follow-up and action item tracking between appointments

Important: Scope of Services

Beacon Cancer Navigation provides administrative and organizational support only. We do not provide medical, clinical, legal, financial, insurance, mental health, or emergency services. All clinical decisions remain with the patient's licensed medical team.

- Family caregivers — adult children, spouses, and long-distance family members
- Community oncology and rural cancer programs needing non-clinical navigation capacity
